

The Story that Became a Legend Now in 3D

The Legend of Zelda™: Ocarina of Time™ 3D brings a completely re-mastered version of this epic entry in the beloved *The Legend of Zelda* series to the Nintendo 3DS system. The game couples phenomenally enhanced graphics with stunning glasses-free 3D visuals to bring to life the daring adventures of its hero, Link™, in the epic tale of the creation of Hyrule and the struggle for control of its all-powerful ancient relic. A streamlined touch-screen interface and new motion controls give the game a fresh and intuitive feel. The game will also feature new challenges not included in the original game, as well as a new hint system to help novice players experience all that the game has to offer. *The Legend of Zelda: Ocarina of Time 3D* is a masterful improvement on one of the landmark moments in video gaming history.

FEATURES:

A graphically re-mastered Zelda classic now in glasses-free 3D

- Dynamic glasses-free 3D visuals and a complete graphical overhaul bring one of gaming's most beloved and celebrated franchises to life, putting the vivid world of Hyrule in the palm of your hand.

Experience the foundation of the legend with new enhancements

- *The Legend of Zelda: Ocarina of Time 3D* retains the analog control of the original via the Circle Pad. Players can use motion controls by moving the Nintendo 3DS system to aim their slingshot or bow at an enemy with speed and accuracy. This also allows for seamless equipment and item changes with an added touch-based inventory system.

Master Quest

- Players who finish the main story can look forward to the Master Quest – a second quest with revamped puzzles and redesigned dungeons that feature the same graphical and interface upgrades as the main game.

Hint movies

- For the first time in a Zelda game, players can access a hint movie if they are stumped by a particular puzzle. Hint movies can be accessed by visiting the Sheikah Stone, which is located by Link's house and in the Temple of Time. When a new movie is available, the Sheikah Stone glows green and allows the player to choose from a menu of available movies.
